## TRANSFORM. EXECUTE. ASSURE.

This month, we were focused on trainings and events - sharing opportunities and information with our agile community. Read more at [www.arielpartners.com](http://www.arielpartners.com)

Ariel Exhibited at the 2022 Alamo ACE conference in San Antonio, Texas, November 14 - 17, 2022. The Alamo ACE provided access and insight to the senior leader's perspective on current developments in cyberspace and future challenges in transforming to multi-domain operations strategically, and military cyber and ISR operations battlespace in the future.

On November 10-11 at the **All Day DevOps** our CTO, Craig Strong, was a featured speaker for the DevSecOps track | "Serverless Security: Putting the Sec in DevSecOps for an AWS Lambda based system" [Click here](#) to learn more.

We welcomed Klaus Leopold to our Webinar Series to discuss: "Why Agile Teams Have Nothing To Do with Business Agility"

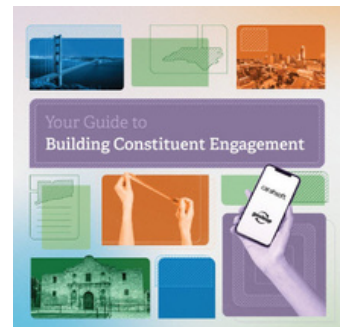

In this talk, Dr. Klaus Leopold discussed an agile transition where approximately 600 people were involved. The goal was to shorten the time-to-market for initiatives to be able to respond to customer needs more quickly and, as such, improve business agility.

**"Engagement means the community is involved in addressing the issues [along] with government, in making the policies, discussing the different approaches, and looking at the outputs, to see if they are contributing to the [desired] outcomes."**

– CTO of Ariel Partners, Craig Strong

Our CTO, Craig Strong, was recently interviewed for the GovLoop CX SLG guide! Check out the new guide titled, "Your Guide to Building Constituent Engagement". This guide offers insight from state and local agencies for successfully reaching residents in a digital and hybrid world. [Click here to download a copy.](#)

## What's next?

We recently exhibited on Dec 12-15 at the 2022 Department of Defense Intelligence Information System (DoDIIS) Worldwide Conference in San Antonio, Texas

Introducing our free Jira plug-in - Seatbelt for Jira improves the predictability and visibility of software development by improving the quality of data that is used to make critical decisions. Stay tuned for more information in the new year!

2023 Course Schedule:
