Ariel Partners Strengthens Federal Security Infrastructure with FBI IT-SSS2 Vehicle Win

Ariel Partners Teams Up with IMTAS and Decisive Instincts to Advance FBI IT Initiatives

New York, NY | May 24, 2024 – Ariel Partners, a premier provider of IT consulting and enterprise solutions, proudly announces its recent success in securing a spot on the FBI Information Technology Supplies and Support Services 2nd Generation Blanket Purchase Agreement, commonly referred to as ITSSS-2. This achievement marks a significant milestone in enhancing federal cybersecurity and technological capabilities.

The FBI plays a crucial role in protecting and defending the United States against terrorist and foreign intelligence threats, upholding and enforcing the criminal laws, and providing leadership and criminal justice services to partner agencies. With over 35,000 employees, including approximately 13,500 special agents, the FBI is instrumental in investigating and preventing crimes ranging from human trafficking to violent gangs and cyber threats.

The ITSSS-2 vehicle, a follow-up to the highly successful ITSSS, will serve as the primary contract for the FBI to obtain critical IT service needs for the next eight years, with a contract ceiling of \$8 billion. Ariel Partners is honored to be among only 95 businesses to be selected by the FBI to help support their mission of upholding and enforcing the criminal laws of the United States, ensuring public safety, and providing criminal justice services to federal, state, municipal, and international partners.

Ariel Partners, in collaboration with our prime partners IMTAS and Decisive Instincts, is poised to revolutionize IT services for the Federal Bureau of Investigation. These strategic alliances establish combined expertise and resources necessary to deliver unparalleled solutions tailored to the unique needs of the FBI's IT infrastructure.

"Our partnership with IMTAS and Decisive Instincts underscores our collective dedication to innovation and excellence. Together, we will continue to raise the bar in delivering secure, reliable, and scalable solutions to safeguard our nation's critical assets," said Craig Strong, CEO of Ariel Partners.

The FBI IT-SSS2 vehicle win signifies a testament to Ariel Partners' proven track record of success in driving impactful transformations and optimizing service delivery for government agencies. By leveraging cutting-edge technologies and best practices, Ariel Partners empowers its clients to stay ahead of evolving threats and challenges in the digital landscape.
