Ariel Partners Awarded GSA OASIS+ Contract Transforming Federal Contracting with Advanced Capabilities

New York, NY | October 2, 2024 – Ariel Partners proudly announces its dual awards under the GSA OASIS+ contract vehicle. The company has been selected as an awardee on the Woman-Owned Small Business (WOSB) track and an apparent awardee on the Small Business (SB) track. Ariel Partners will be working on the GS OASIS+ Contract as the managing member of the ICES-AP Joint Venture with Intelligence Consulting Enterprise Solutions Inc. (ICES). Ariel Partners has been awarded the Management and Advisory Domain as well as the Technical and Engineering Domain, which will enable us to provide a full range of management and consulting services as well as specific engineering, geoscience, or other technical professional services.

The GSA OASIS+ (One Acquisition Solution for Integrated Services) contract is a Best-In-Class (BIC) contract vehicle designed to help federal agencies meet their procurement requirements for services-based solutions. OASIS+ is a suite of six multiple-award, indefinite-delivery/indefinite-quantity contracts with a five-year base period and a five-year option term. Encompassing several domains such as program management, engineering, IT, and scientific services, OASIS+ provides agencies with efficient access to innovative expertise tailored to their unique needs.

With a 10-year performance period and a multi-billion-dollar ceiling, the OASIS+ contract enables federal agencies to procure comprehensive solutions while reducing administrative burden and procurement timelines. This aligns seamlessly with Ariel Partners' commitment to delivering high-value, scalable services that address the complexities of federal operations.

“This award through our joint venture is a tremendous opportunity for Ariel Partners to expand our role in supporting federal agencies with transformative solutions,” said Craeg Strong, CTO of Ariel Partners. **“As the managing member of the ICES-AP Joint Venture, we are proud to bring our expertise in Agile transformation, digital modernization, and enterprise consulting to help federal clients achieve mission success.”**
